

All blast hits with score > 50, 4/4–gene x/y windows (heatmap range: 2–5+ hits/window)

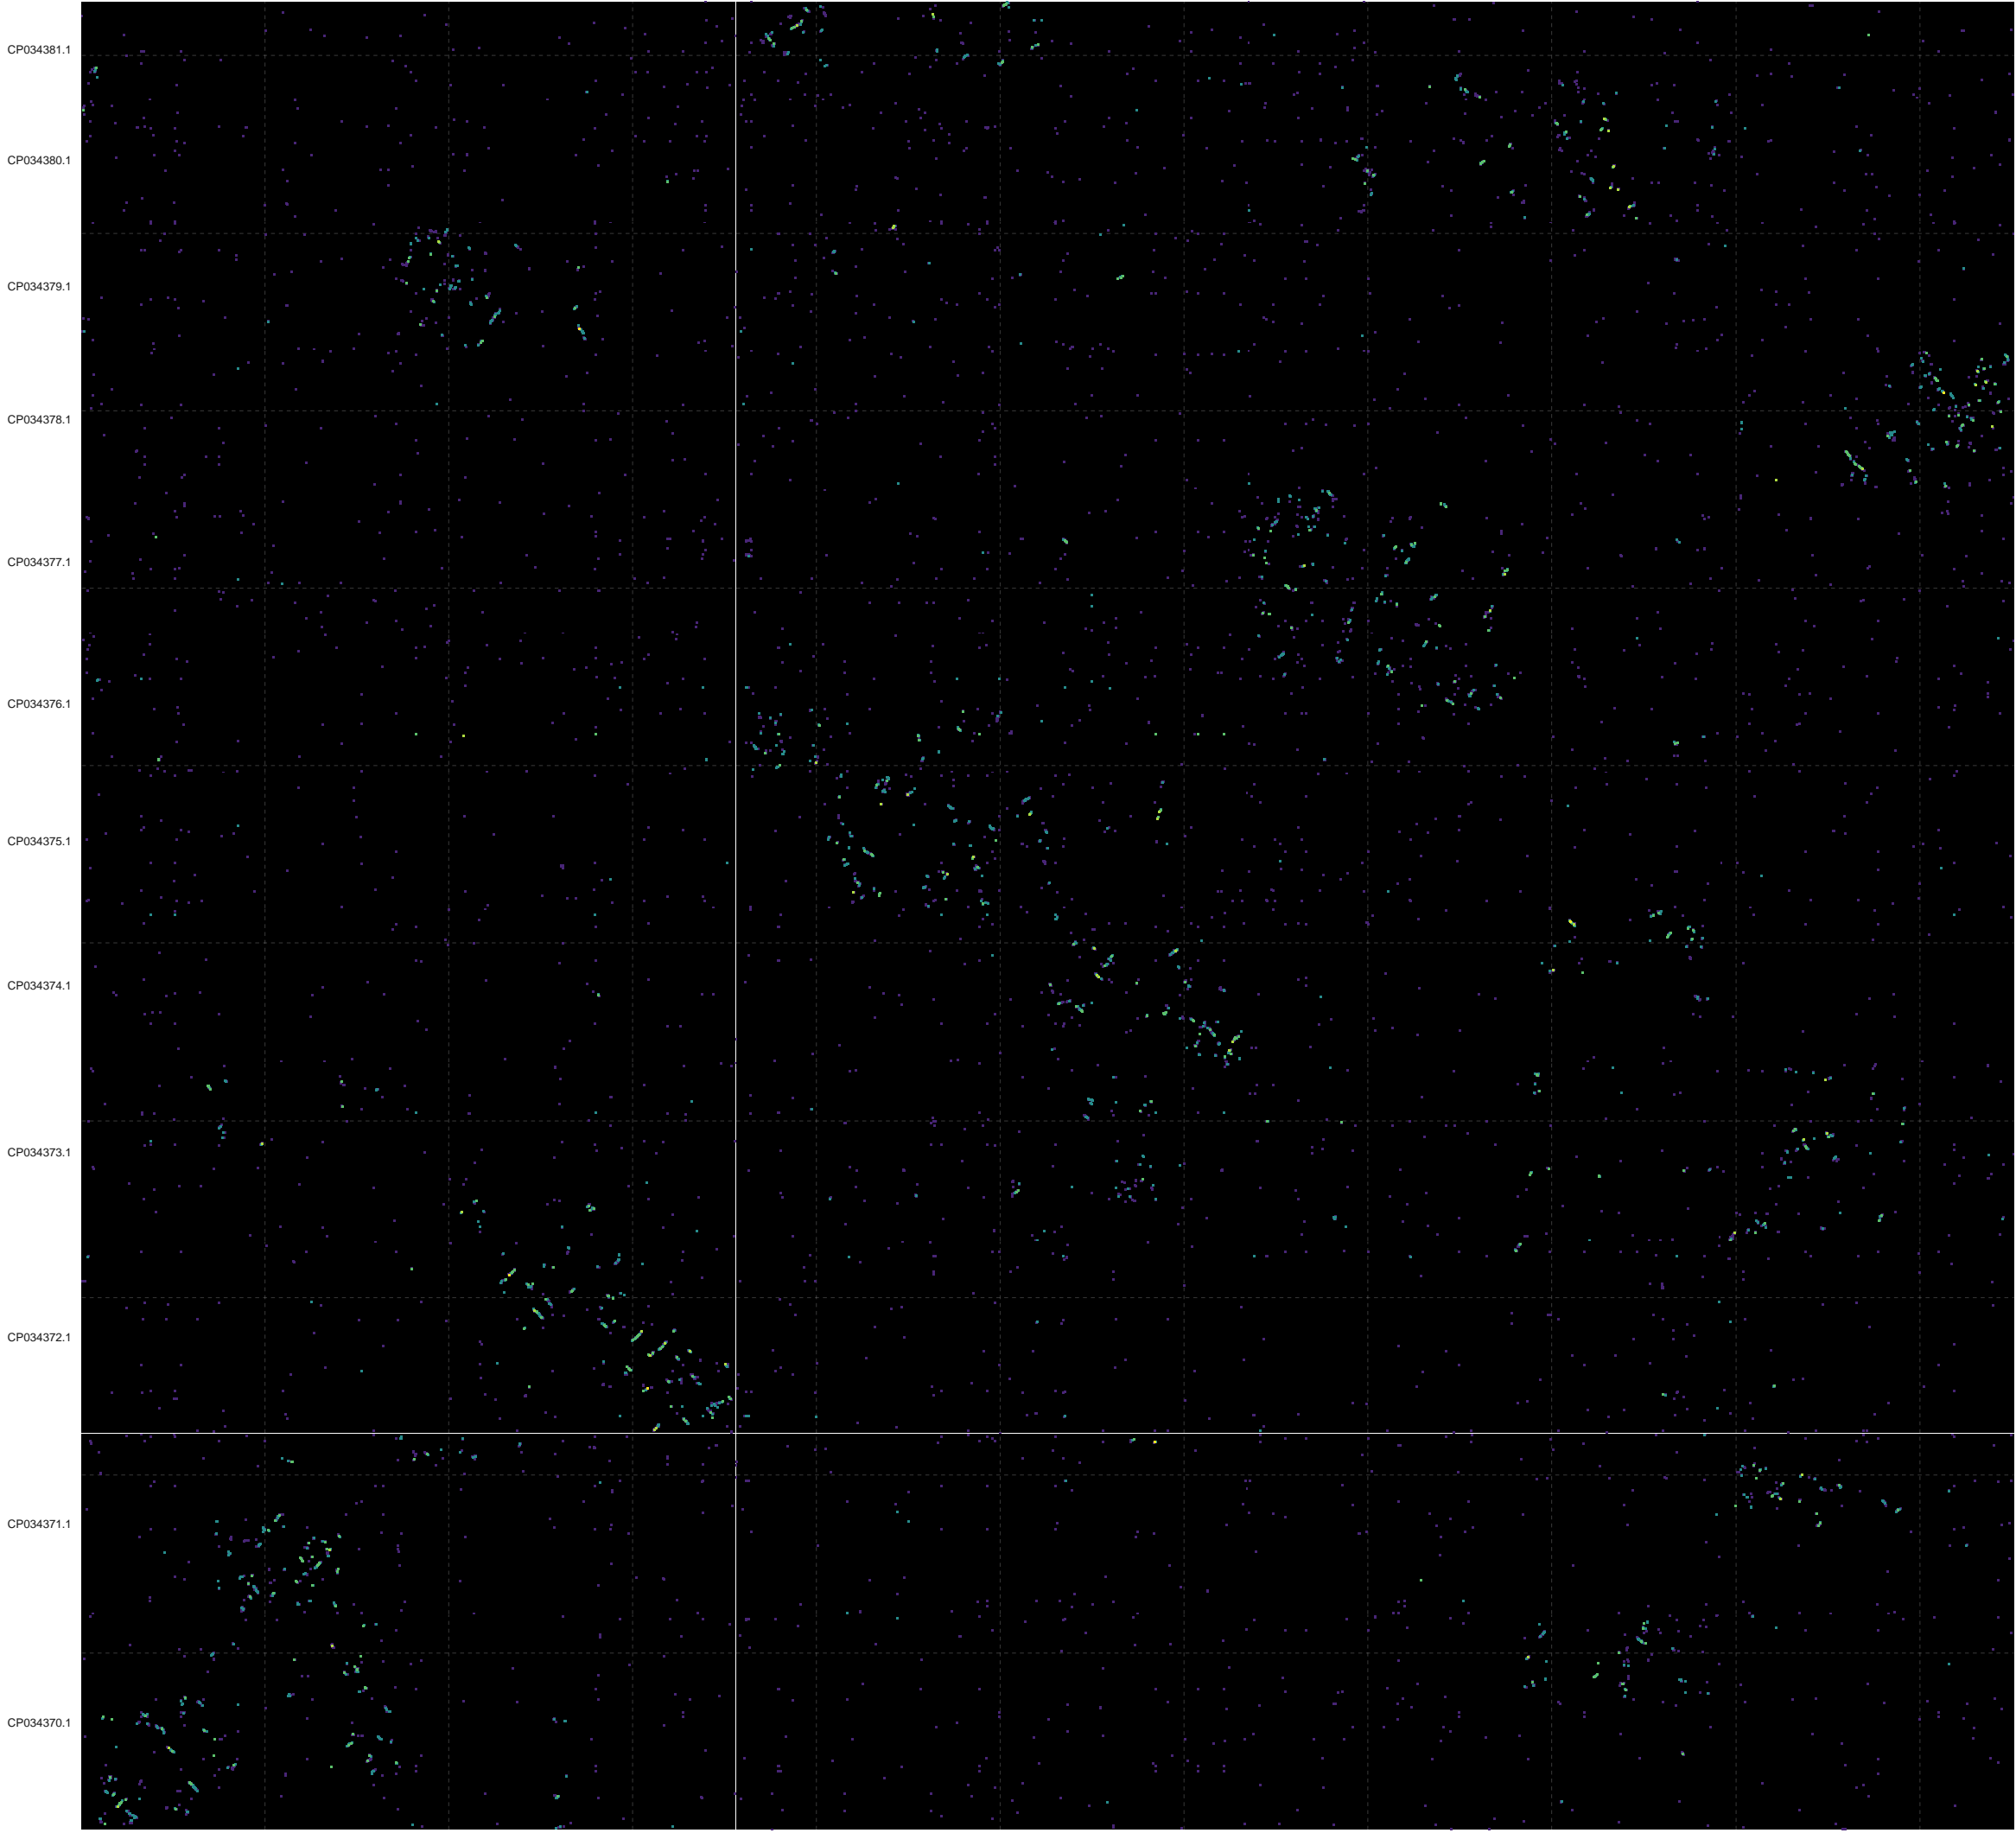

Exophiala\_lectanii\_cornii: gene rank order position (8817 genes w/ blast hits), grids every 1000 genes

Exophiala\_sideris: gene rank order position (9189 genes w/ blast hits), grids every 1000 genes

Blast hits where query and target are in the same orthogroup, 4/4-gene x/y windows (heatmap range: 1-5+ hits/window)

Exophiala\_lectanii\_cornii: gene rank order position (7632 genes w/ blast hits), grids every 1000 genes

Exophiala\_sideris: gene rank order position (7563 genes w/ blast hits), grids every 1000 genes
