

All blast hits with score > 50, 4/4–gene x/y windows (heatmap range: 2–5+ hits/window)

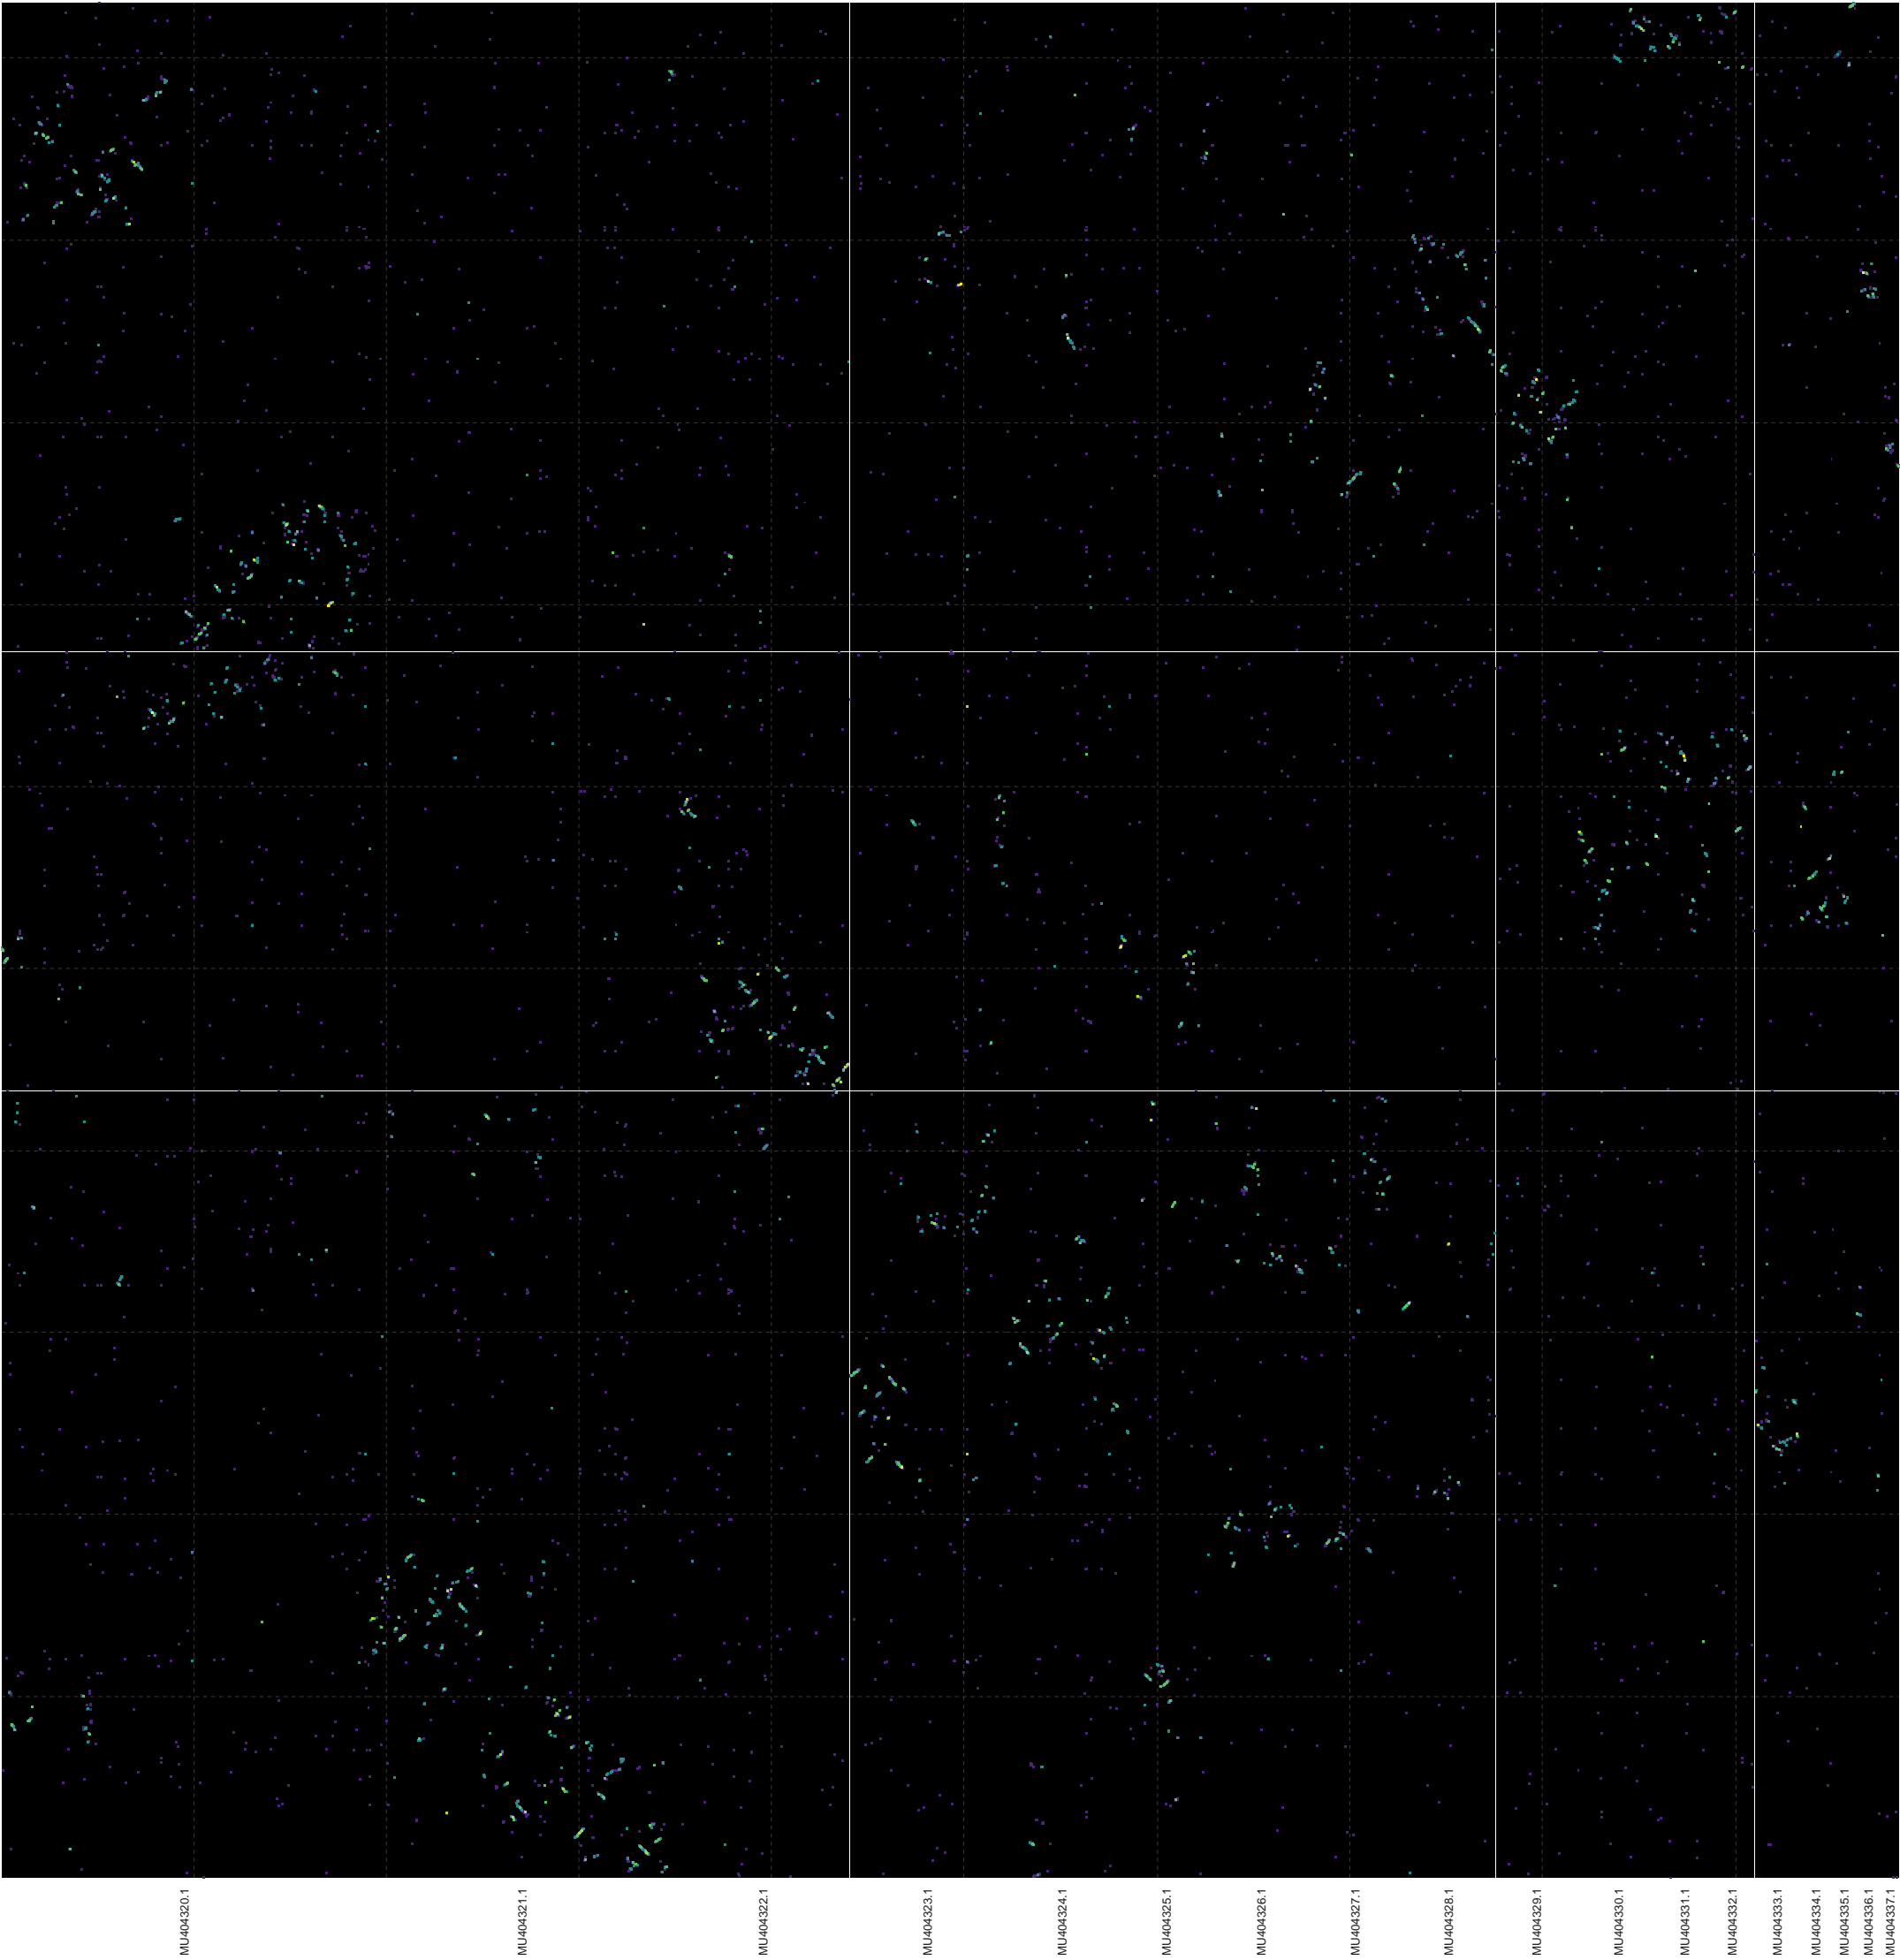

Exophiala_lectanii_corni: gene rank order position (8786 genes w/ blast hits), grids every 1000 genes

Exophiala_viscosa: gene rank order position (8778 genes w/ blast hits), grids every 1000 genes

Blast hits where query and target are in the same orthogroup, 4/4-gene x/y windows (heatmap range: 1–5+ hits/window)

Exophiala_lectanii_corni: gene rank order position (7553 genes w/ blast hits), grids every 1000 genes

Exophiala_viscosa: gene rank order position (7313 genes w/ blast hits), grids every 1000 genes
